NZCETA SALES POLICY

Please note that all CETA resources are produced using Microsoft Windows XP.

Ordering Resources from NZCETA

This catalogue details all the resources CETA has currently for sale.

All prices are GST inclusive.

Only use the correct order form. Orders will be accepted via email or post – no telephone orders are acceptable. If payment is not attached, a school order number must be given.

When ordering resources from the CETA catalogue, write the name and number of the resource in the blank space provided at the end of the order form. Resources are delivered to purchasers either online or via USB key drive with the exception of booklets which can be ordered as hardcopy. Posters are available in hardcopy only. Preference must be indicated on the Order Form

When an order is received CETA prepares a Tax Invoice, including the CETA GST number. If payment accompanies the order, the invoice is stamped 'Paid', if not it is stamped "Payment Due within Seven Days". The invoice is sent with the order.

Members' Differential: to take advantage of the differential we offer to CETA members, it is essential that you complete the appropriate section on the order form with your membership number. To receive this differential the order must be made by a member and not on behalf of another person, or by quoting another member's number. We know that members appreciate this differential, and we are keen to continue our policy, but we must ensure that it is not abused, or it will be necessary to reconsider.

Delivery of Resources

Resources are delivered either online or via courier.

Sales and Distribution Fee: A flat fee is payable on all orders to cover processing and courier costs.

Please remember to include this in the order total.

Courier Service: The courier service CETA uses requires all mail to be addressed to a street address. For this reason, it is essential to supply a school street address on all resource material orders.

Payment for Resources

Any items purchased on credit must be paid no later than the 20th of the month following purchase.

It is essential to indicate what the payment is for, example "resources", "PD", "subs – name of member". All prices include GST.

Moderation/Evaluation

All CETA resources are checked prior to being offered for sale by experienced subject experts to ensure their accuracy, appropriateness, and suitability. Please note that this is not an official NZQA moderation.

NZCETA Copyright

A copyright statement has been included in the CETA Newsletter for a number of years. We wish to emphasise this statement as we know some people have breached Copyright and NZCETA wishes to make it clear that it will not hesitate to take action if this continues. Reference can be made to The Copyright Act 1994, Section 44 (revised in January 1998) regarding educational establishments. The purchasing of a resource **is not gaining prior permission. Please note the following statement which appears on all NZCETA resource materials.**

Copyright Statement

Resources are marked with symbol ©

Interactive Resources

Nau Mai Rā	COM 23/2/1	\$70.00	Achievement Objective: Level 5 - Understand how economic decisions impact on people, communities, and nations. Level 5 - Understand how people's management of resources impacts on environmental and social sustainability Level 5 - Understand how people seek and have sought economic growth through business, enterprise, and innovation Level 6 – Economics - Understand how, as a result of scarcity, consumers, producers, and government make choices that affect New Zealand society Level 6 – Accounting - Make use of appropriate communication tools and skills to process, report, and interpret financial information for individuals, whānau, and local small entities, including community organisations Level 6 – Business Studies - Understand how, as a result of internal and external factors, small business owners make operational decisions that have consequences for the success of their business. Progress outcomes: Understand: People hold different perspectives on the world depending on their values, traditions, and experiences. Understand: people participate in communities by acting on their beliefs and through the roles they hold. Know: The uneven acquisition and allocation of scarce resources, goods and services, and wealth creates personal, societal, and global challenges. These challenges lead to individual and collective action Know: through innovation and enterprise, individuals, communities, and societies create new opportunities that can enrich or disrupt lives, change views about needs and wants, and impact on sustainability and regeneration. Do: recognise the strengths and limitations of social action campaigns Do: evaluate the impact of social actions and their personal and social significance. Strand: The economic world Contents: This pack covers the following topics each with a powerpoint: <ul style="list-style-type: none">• Vocab task• Numeracy task• Interdependence• Costs Activity <p>This resource is a variety of activities that use Nau Mai Rā as the context. Nau Mai Rā is a New Zealand power retailer set up to tackle power poverty. They have strong Māori values within their business model. These are short tasks that will allow teachers of Year 10 and Year 11 classes to integrate mātauranga Māori concepts into their teaching and learning programmes.</p> <p>The four activities are stand-alone but the vocab task would be an ideal start. This introduces both English and Te Reo terminology related to Nau Mai Rā and power poverty. Each activity is a powerpoint that includes suggested answers.</p>
-------------------	---------------	---------	---

Content Development

Prior Learning

Concepts such as interdependence and costing should have been previously introduced to the students.

Specific Content

By working through the powerpoints, students will add to their understanding of:

- Vocabulary related to power poverty and Te Reo terms.
- Using numerical data to compare products.
- Interdependence related to the power industry.
- Fixed and variable costs.

Further Learning

This resource is a stepping-stone to a variety of other topics within Economics, Business Studies and Accounting. This resource could also support teaching and learning in a Level 1 NCEA Commerce programme from 2024.

Achievement Standard Resources

Assessment Case Study
Assessment Questions
Assessment Suggested Answers
Assessment Schedule

This is a practice formative assessment task to support the preparation for assessment of Com 1.2 (Demonstrate understanding of price determination for an organisation).

The task is based on a case study scenario. It allows learners to determine a price for a product by using Cost Volume Profit analysis tools. The case study presents all necessary information for the learner to identify fixed and variable costs as well as calculating the breakeven level of sales and sales required to achieve a target profit level.

Once calculations are complete, learners are challenged to analyse their price level appropriateness in the market and how they should respond to a change in conditions, including the consequences of this response on stakeholders. The business pūtake is expected to be considered when evaluating pricing decisions.

The task provides a template for learners to work their way through the analysis.

This resource could be completed all at once, or in segments as relevant teaching and learning is completed. Answers in the schedule provided are suggestions and there could be a number of other similar acceptable answers.

NB this is a practice formative assessment and is not suitable for NZQA summative assessment.

Specific content

In order to complete this assessment, students will be required to:

- identify costs
- research competition
- calculate break even quantity
- calculate quantity required to achieve a target profit
- consider what changes in production might be required
- include financial and non-financial information in determining price
- prepare a Projected Income Statement
- discuss consequences of pricing decisions on the entity
- discuss consequences of pricing decisions on stakeholders

Assessment Suggested Answers

Assessment Schedule

This is a formative assessment task to support the preparation for assessment of Com 1.1 (Demonstrate understanding of an organisation's financial decision-making).

This task explores three different destinations for a holiday for a whānau. Students will investigate the costs of travelling to the different destinations and the activities available in the three different destinations.

Students will consider the pūtake of the whānau in relation to the holiday destinations. They will use a financial tool of a budget along with other ways to show the information researched on the three destinations. Students will do through the decision-making process, including the stakeholder perspectives.

The destinations (Queenstown, Rotorua, and Nelson) could be changed to suit your class. Or the students could pick three destinations of their choice.

This resource could be completed all at once, or in segments as relevant teaching and learning is completed.

Answers in the schedule provided are suggestions as examples and there could be a number of other similar acceptable answers.

NB this is a practice formative assessment and is not suitable for NZQA summative assessment.

Formative
Assessment

This resource contains questions each of which allows the candidate to achieve up to Excellence grade. It offers multiple opportunities for students to demonstrate an understanding of the standard. Note that only one change in an internal or external factor is required for the standard but two (change in technology and change in council requirements) have been provided in this assessment. Discussion of complements, substitutes and related goods is not required when determining price but scaffolds students towards discussions of how changes in price can impact the organisation and stakeholders (consumers, suppliers, and council). This resource could be completed all at once, or in segments as relevant teaching and learning is completed. Answers in the schedule provided are suggestions and there could be a number of other similar acceptable answers.

NB this is a practice formative assessment and is not suitable for NZQA summative assessment.

SWOTting The Financial Decisions	COM 24/1/6	\$70.00	<p>Big Idea(s) Culture and values shape consumer perspectives and organisations' uptake. Informed financial and non-financial decision-making and action can result in the sustainable use of scarce resources and positive outcomes for stakeholders.</p> <p>Significant Learning: Understand that due to scarcity, decisions need to be made. Investigate how pūtake informs financial and non-financial decision-making. Understand that decisions made by organisations impact themselves and society. Recognise that Māori, Indigenous Pacific knowledges, and other perspectives inform a range of concepts that influence decision-making. Use concepts, models, or financial statements to communicate financial and non-financial information Understand that decisions made by organisations impact themselves and society Explore how external factors impact organisations.</p> <p>Assessment Link(s): Demonstrate understanding of an organisation's financial decision-making (1.1)</p> <p>Contents: Resource descriptor & teacher notes Formative assessment task Formative assessment suggested answers Formative assessment schedule</p> <p>This task explores a chosen organisation that needs to make a financial decision. You will be tasked with the role of he Aratohu Putea (a Financial Guide). You will start with an exploration of the organisation's pūtake. You will be required to identify key stakeholders - those that are integral to the decision-making process. You will assess a range of options - discussing the pros and cons of each option and consider the consequences for the organisation and its stakeholders. You will incorporate the financial tool - SWOT analysis, to explain how each option addresses the organisation's needs and present diverse stakeholder's perspectives.</p> <p>Provided in the teaching and learning pack are learning slides that are designed to facilitate students' understanding of each step of the decision-making process within a financial context. Through interactive elements and comprehensive explanations, students will explore key commerce vocabulary related to the decision-making process, answer critical thinking questions and read through suggested answers for a variety of authentic contexts. At the end of each slide, there is a task designed to guide students through each stage of their assessment, allowing them to select their own context for demonstrating their understanding of an organisation's financial decision-making.</p> <p>NB this is a practice formative assessment and is not suitable for NZQA summative assessment.</p>

Teaching & Learning Resources

**Picture Perfect -
The Circular Flow as
a Model of the
Economy &
Interdependence**

COM
24/2/1

\$70.00

**NZ Curriculum
Level:
Te ao tangata
Social sciences**

**NZC Level 6/
NCEA Level 1
AS 1.3**

Achievement Objective:

Understand how the different sectors of the New Zealand economy are interdependent.

Te Mataiaho Phase 5

Understand:

Tuia i runga, tuia i raro, tuia i roto, tuia i waho, tuia te muka tangata. Interactions change societies and environments.

Know:

Interdependence among different sectors of the economy (internal and international) generates flow-on effects from events that impact a sector.

Do:

Te whakaaro huatau | Thinking conceptually. I can: examine complex concepts and apply frameworks and models to develop theoretical understandings and to form generalisations about society.

Significant Learning:

Understand how sectors and groups within society are interdependent.

Assessment Link(s): Interdependence (but not the Circular Flow Model) relate to Achievement Standard 1.3 (AS92030)

Curriculum Links - The resource links with the New Zealand Curriculum and in particular embodies the principles of Learning to Learn and using language, symbols, and text.

Contents:

Resource descriptor & teacher notes

Powerpoints with explanations

Activities

Suggested Solutions

This resource is designed to help teachers and students understand the Circular Flow Model as an economic concept relating to interdependence. Each sector is explored individually, then the relationships between different sectors are explored. Within the produce sector, primary, secondary, and tertiary sectors are also explored. With this knowledge, students can then improve their paragraph writing skills, applying economic concepts, and including specific examples from case studies.

The resource would be useful for a Level 1 Economics or Level 1 Commerce programme, as part of a unit on interdependence and also for preparation for Level 2 Economics. The resource may also be useful for an introduction topic in Level 2 Economic Growth for those students who have no background in Economics from Level 1.

Specific Content

1. Household Sector
2. Producer Sector
3. Interdependence
4. Financial Sector
5. Government Sector
6. Overseas Sector
7. Scenarios

Assessment Guidelines

The following assessment methods are suggested:

- Checking answers against the suggested solutions
- Peer assessment
